AN ASSEMBLY OF NATURE'S WONDERS FOR LIVING

Right here at **LyndenWoods**, you'll be stepping into a haven where the beauty of the natural world intertwines harmoniously with the rhythm of your life. Here, amidst lush towers that gracefully extend towards the sky, you'll discover a dwelling experience that nourishes both body and soul. This is an environment, where nature's tranquillity envelops and soothes you. This is a lifestyle, that lets your dreams flourish in nature's embrace.

The wonders of a living
and breathing architecture

TREE OF LIFE

Rising majestically above lush landscaping, the towers simulate the glorious emergent layer of a rainforest. Stunning views seek to inspire and rejuvenate, while Sky Terraces on every residential floor allow you to bond as a community and form a sense of belonging. Here, you'll indeed be coming home to a life of plenty.

CANOPY LAYER

The Canopy Layer is a landscaped podium that offers a unique perspective of your surroundings. Designed as a cosy habitat, residents are invited to discover hidden pockets of serenity and bask in the therapeutic interplay of nature and urban living.

FOREST FLOOR

Teeming with life, the ground area of the Forest Floor is characterised by thoughtfully arranged greenery, guiding residents through curated pathways. Shared facilities are also speckled within this leafy expanse, encouraging interactions and conversations.

SMART BY NATURE

At **LyndenWoods**, sustainability and smart living go hand in hand. One of the few residential projects in Singapore to achieve Green Mark Platinum with all five badges, every detail here is designed for ease, efficiency and your well-being. From systems that adapt to your lifestyle to green features that work in quiet harmony with the environment, this is a home where technology and nature coexist seamlessly, built for the way you want to live today and into the future.

Common Areas

BIOPHILIC DESIGN

Sky terraces and lush landscaping weave greenery throughout the development, creating a nature-rich environment that supports well-being.

SMART LIGHTING

LED lighting with motion sensors is integrated in common areas like staircases, optimising energy use while maintaining comfort.

LOW-MAINTENANCE FINISHES

Selection of low VOC paints with good resistance to water absorption to reduce the need for maintenance.

SUSTAINABLE MATERIALS

Green-certified, low-carbon materials and Advanced Precast Concrete System (APCS) components are used throughout the development.

WATER-EFFICIENT FITTINGS

Every unit is equipped with showerheads and basin taps that carry the highest WELS rating, while auto-flush functions in common toilets help optimise water usage.

SUSTAINABLE TRANSPORT

EV charging lots are provided to support greener modes of transport and future-ready lifestyles.

ACTIVE MOBILITY

Dedicated cycling paths and excellent connectivity to public transport encourage a more sustainable way to move through the city.

ENERGY-EFFICIENT FANS

Carpark ventilation systems are powered by energy-efficient fans that activate when CO levels exceed set limits, reducing power use while maintaining air quality.

All Units

SMART HOME GATEWAY

One-stop platform to remotely manage, access devices and connect with compatible appliances for added convenience.

SMART AIR-CON CONTROLS

Cool your home before you arrive or adjust settings anytime, from anywhere.

ENERGY-EFFICIENT AIR CONDITIONING

5-tick rated systems to keep you cool efficiently while reducing energy consumption.

SMART DIGITAL LOCKSET

Secure your home with remote access and seamless, keyless control.

OPTIMISED ORIENTATION

Windows are positioned to minimise direct East-West sun and heat exposure, keeping units more comfortable.

WATER-SAVING DUAL FLUSH SYSTEM

Each unit is fitted with water closets that offer half-flush and full-flush options to optimise water usage.

PASSIVE COOLING

Shading elements and balconies help reduce heat gain for naturally cooler interiors.

NATURAL VENTILATION

Homes and common spaces are designed to optimise airflow and reduce reliance on mechanical cooling.
